Learnt about Version Controlling with the use of Git. Use of Gitbash Commands and using Git from Git GUI.

Data Structures And Algorithms: Coursera Course

UC San Diego University, Online

Apr 2020 - Aug 2020

Learnt about Advance Data Structures and Algorithms and their use in Problem Solving. Algorithmic Techniques like Greedy, Divide and Conquer, Dynamic Programming, as well as Data Structures like LinkedList, Stack, Queue, Trees, Graphs and etc. Also I learnt some of the String Algorithms commonly used in Computer Science.

PROJECTS

EShopee: FlutterFire eCommerce Application

Dec 2020 - Dec 2020

<https://github.com/rahul-badgujar/EShopee-Flutter-eCommerce-App>

In this application, I have tried to gather all the fundamental features of eCommerce applications. It uses Flutter Framework for the Frontend and Backend of the App and Firebase as a server to maintain the app's databases and storage requirements.

AeroWeatherMate App: Flutter App

Aug 2020 - Sep 2020

http://bit.ly/aeroweathermate_linkedin

AeroWeatherMate

an Air Quality and Weather Status App

Developed it as Practice Project while Learning Flutter throughout 3 Weeks

Github: https://github.com/imRB7here/air_quality_app

Music Player: QtC++ QML Application

Mar 2020 - Apr 2020

http://bit.ly/musicplayer_linkedin

A Simple Music Player with Playlists Supports

Developed while Learning GUI Development with QtC++

Github: <https://lnkd.in/gYZwEUd>

The 2048 Console Game: C++ Game

Feb 2019 - Feb 2019

http://bit.ly/2048game_cpp

The Famous 2048 Game in its Console Version in C++

Developed under requirement Fulfillment on Codeclerks

Github Code: <https://lnkd.in/gWKJkpH>

The Classic Tetris Game: C++ SDL2 Game

Oct 2018 - Nov 2018

http://bit.ly/tetrisgame_sdl2

The Classic Tetris Game using SDL2 Graphics Library of C++

Github: <https://lnkd.in/gwme-w7>

Youtube Video: <https://lnkd.in/gpaUFAg>
